

did you know?

Personal Identifying Information (PII)

In September of 2018, House Bill 18-1128 concerning consumer data privacy protection was put into effect. Its passage has, among other things, impacted Colorado's data breach notification requirements and data security requirements.

In light of this and to help protect consumer's personal identifying information, we recommend the following options when submitting data that may contain such information to CHFA:

- Securely transfer files using CHFA's HomeConnectionSM.
- Contact [CHFA Home Finance](#) to set up a persistent Transport Layer Security (TLS) connection for secure email.
- Utilize your own inhouse secure transfer system.

Please contact us with any questions.

Key takeaway: Protect PII with secure data transmission.
